Download the app for Apple iOS here, Download the app from Google Play here

Once you open the app, you will be taken to a screen that looks like this. You should then click the Member Login button and enter your existing Daxko username and password. The log in screen should look familiar to those who have logged in previously to access your online account.

### Notifications

Once you have logged into your account the following notification will appear. To keep you informed about important and time-sensitive information, we recommend clicking the allow button so you can receive push notifications via your lock screen and/or banners on your device.

If you accidentally click don't allow or wish to change your notification settings, these can be changed in your device settings.

Notification settings for iPhone, Notification settings for Android

While notifications can display on your phone lock screen (depending on your settings), Notifications are also visible through the **Notifications tab** in the bottom panel of the app. If there are unread notifications, a small badge will show on the bottom panel.

In the Notifications tab, members can also scroll through past notifications, tap to read more, and mark them as read.

#### Schedule

The Schedule tab serves as the all-in-one home for all group exercise classes and programs. You can browse and register for all our Group Ex classes by clicking on the **Classes** banner on this page and can search by date and with the filter option.

To view **Program** offerings, you can tap on the Programs tab. This will surface the online browse program experience from Daxko. Because you are already logged into your Daxko account, registering for programs is a breeze!
